**Shropshire Blue** - has a flavour somewhere between Blue Cheshire and Blue Stilton, a creamy orange coloured paste with blue-green veining; annatto produces the orange colour and *Penicillium roquefortii* produces the veining. It has a medium blue flavour with a firm creamy texture. The cheese is matured for 12 weeks.

**Barbers Vintage Cheddar** - Aged for a minimum of 24 months, this wonderfully rich West Country Cheddar has been made in Somerset for 6 generations. It uses a traditional starter culture and develops a unique creamy, and full flavour.

**Rutland Red** - Made by Long Clawson Dairy, in the Vale of Belvoir, this fantastic aged Red Leicester is perfect for any cheeseboard. With the usual rich orange colour it has a lemony and slightly sweet flavour reminiscent of caramel. The only pasteurised Red Leicester made in Leicestershire.

**Somerset Brie** - Somerset Brie is creamy with a mild, fresh flavour and a soft edible white rind. The curd is the colour of straw, and as it ripens from the outside in, it becomes softer, richer and with a fuller flavour. Made with pasteurised cows milk it is suitable for vegetarians.

**Quicks Goats Cheese** - Using all her years of experience in making world class cheddars, Mary Quicke uses local West Country goats milk to make this goats cheddar. With a sharp white pate it balances the taste of goats milk with a traditional cheddar and is matured for up to 12 months. It has a deep, sweet, nutty flavour.
